PROFESSIONAL SUMMARY

Work-study iOS developer at Skyconseil since January 2024, building Guidor — a professional aviation app integrating MapboxMaps SDK v10+, UIKit, and MVVM architecture. Independently published several apps on the App Store. Full-stack profile built through progressive skill development: Swift, React.js, CI/CD, with a strong interest in mobile AI and cloud.

CORE SKILLS

iOS Mobile : Swift, SwiftUI, UIKit, AVFoundation

Architecture : MVVM, MVC, Clean Architecture

Mapping & Geospatial : MapboxMaps SDK v10+, JSON Filters

DevOps & CI/CD : Git, GitHub Actions, Automated Pipelines, Unit Testing

Web & Cloud : React.js, TypeScript, JavaScript

PROFESSIONAL EXPERIENCE

iOS Application Developer — Work-Study · Skyconseil [Work-Study](#)

January 2024 – September 2026 · Toulouse, France

- Developed and integrated MapboxMaps SDK v10+ on Guidor, a production iOS aviation app: dynamic map annotations and raster tiles.
- Implemented UIKit and SwiftUI features following MVVM architecture within a 5-person Agile/Scrum team.
- Wrote internal and client-facing technical documentation covering all map modules.

Embedded Software Development Intern · Le Facteur Humain & Combustible Numérique [Internship](#)

June 2023 – July 2023 · Toulouse, France

- Built an embedded guidance system (Guidor project) in Arduino and C++, integrating hardware sensors, actuators, and a control interface within a cross-functional team.

PROJECTS

Full project list on portfolio: sharik.fr/portefolio

Guidor [App Store](#) — Professional project · Aviation iOS app in production (Skyconseil)

Swift, UIKit, SwiftUI, MVVM, MapboxMaps SDK v10+, CI/CD

Meow-Tube [App Store](#) — Personal project · 4.9 ★ — YouTube without ads or Shorts, no subscription

Swift, SwiftUI, MVVM, AVFoundation, YouTube Data API

easy-Gym [App Store](#) — Personal project — Home workout for all fitness levels, no equipment

Swift, SwiftUI, iOS

Jeu de Point [App Store](#) — Personal project — Traditional Malagasy strategy game

Swift, SwiftUI, iOS

EDUCATION

Master's in Computer Science (BAC+5)

Epitech · August 2023 – September 2026

Professional Qualification — iOS Application Developer

Simplon Auvergne-Rhône-Alpes · April – July 2023

BTS Management of Commercial Units

Écoles Billières · Sept. 2020 – July 2022 · Management, Marketing & Sales · Career switch into software engineering
